Technical Summary of My Work

File Name	My Role What I Did
LoginView.fxml	➤ Made a dashboard to Admin Login options. ➤ Adding a button to Signup as a customer and customer login option. ➤ Wrote controller code to switch between scenes when buttons are clicked.
AdminDashboard.fxml	➤ Made a dashboard to choose options. ➤ Added buttons: View, Add, Back..... ➤ Wrote controller code to switch between scenes when buttons are clicked.
CustomerDashboard.fxml	➤ Made a dashboard to choose options. ➤ Added buttons: View, Buy, Back..... ➤ Wrote controller code to switch between scenes when buttons are clicked.
SignupDashboard.fxml	➤ Made a dashboard to Signing Up. ➤ Added buttons: Add, Back..... ➤ Wrote controller code to switch between scenes when buttons are clicked.

Challenges Faced

- Creating an FXML file
- Set up JavaFX
- Getting error multiple times

What I Learned

- ❖ Using JavaFX SceneBuilder
- ❖ Making controller
- ❖ Signup function
